Subject: FW: HCA Issue #37820 - BHDS Changes April 5 2024

Hi Fawn,

Can you please forward this to the MIS and Clinical groups?

Hi all,

Please see these important changes that HCA will be making to the 020 Client Demographic, 022 Client Address, and 140 Funding transactions. HCA has given us a deadline of 4/5/24 to implement these changes, but I have asked them for the full 120 day timeframe to make the changes we are supposed to receive by contract (4/5/24 is only 90 days notice). So far, I haven't heard that they are changing the effective date to be in compliance with contract, but I'll let you know if that changes. Please note that these changes will necessitate an increment change in the transaction ID also. Please let me know if you have any questions or concerns.

Thank you,

Kelly Nortrom

Subject: HCA Issue #37820 - BHDS Changes April 5 2024

Dear Managed Care and Administrative Services Organizations,

The purpose of this email is to inform HCAs contracted partners of a change in BHDS that must be implemented on or before April 5, 2024.

The change is to add the Provider NPI field to the body of the following supplemental data transactions:

- Client Demographic 020.08
- Client Address 022.03
- Funding 140.02

The above transaction codes (20.08, 22.03, 140.02) will continue to be accepted in BHDS as they are structured in BHDG 5.7.

On April 5, 2024, HCA will not accept the old transaction codes (20.08, 22.03, 140.02) if the effective date => 4/5/2024.

The new transaction codes for each of the three transactions are listed below and are attached to this email. The attachment includes the table structure with the "Provider NPI" field added to the bottom of the body of each transaction.

- Client Demographic 020.09
- Client Address 022.04
- Funding 140.03

The "Provider NPI" field will be a required field and must be the same Billing Provider NPI submitted in Loop 2010AA, NM1*85 segment on encounter data.

HCA will allow testing starting in February 2024. If a test file has been uploaded to MFT Test, please submit a ticket via mmishelp@hca.wa.gov so the file can be picked up for processing, and a response file returned.

This change will also impact the data completeness logic for Q2 2024. The logic will be updated to reflect the following for the Assessment/Intake data completeness report:

A. Data elements to use for matching:
   1. For Client Demographic
      a) Client ID
      b) Provider NPI
   2. For Client Address:

       a) Client ID
       b) Provider NPI
       c) Effective Date (+ and – 45 days)
3. For Funding:
       a) Client ID
       b) Provider NPI
       c) Effective Date (+ and – 45 days)

Any questions should be directed to mmishelp@hca.wa.gov.

Thank you,
