PURPOSE: To specify the process for ensuring that the latest supplemental data transactions and encounter data are respectively available to the Washington State Health Care Authority (HCA) and ProviderOne and the Greater Columbia Region contracted Managed Care Organizations (MCOs), and are as current and error free as possible.

POLICY

Greater Columbia Behavioral Health (GCBH BH-ASO) submits batch files of all encounter and supplemental data received and processed from providers since the last export at least monthly. Supplemental data transaction exports may require more frequent exports, depending on the receipt of any ITA Hearing transactions. ITA Hearing transactions are submitted within 24 hours. All supplemental data is submitted to HCA within 30 days of receipt from providers; encounters are submitted to the appropriate MCOs for those clients/encounter data that are enrolled in Medicaid and members of that MCO. All remaining encounters (outpatient and inpatient) are submitted to HCA via ProviderOne. Any errors from the MCOs, ProviderOne, or HCA are to be corrected within 30 days.
